

How We Work

Phase 0 - Getting Started

Terms and conditions of the following phases are explained and timelines and milestones are established

Phase 1- Discovery

Existing documentation is gathered and process mapping is performed to establish the Quality Management System

Phase 2 - Documentation Preparation

Procedures, manuals, forms, training and other data specific to the company via Phase 1 are generated

Phase 3 - Implementation and Training

Quality Management System training and Process Owner training

Phase 4 - Internal Audit & Management Review

Performance of first Management Review and Internal Audit

Phase 5 - Certification Audit

Prepare audit package and onsite support during the 3rd party registrar audit
